[2] Energy and Climate Change (EC)

[2.13] The number of innovative program

In 2021 and 2022, many initiatives have been made to increase the awareness and quality of life for local community and Malaysia. The CSR program has been conducted to help people who live in remote areas and are unable to provide utilities such as electricity.

This aid is channeled using UMP and the Malaysian Ministry of Higher Education funds. UMP's internal expertise is been utilized to meet the basic needs of these needy groups.
